

Recommended Scanner Options

There are other features and options besides page volume that may influence which scanner is appropriate for your area. This sheet does not serve as a buying guide but provides budgetary information only. All items may be purchased through RBHSware or other approved IT vendors such as CDW-G and PCM-G after the proper scan solution is identified. Prices are per scanner to be deployed and require software and maintenance contracts.

Low Volume Scanner (personal scanner estimate less than 100 pages)
